

QA Testing Report

Project: Project X

Version/Build: 1.0.0

Date: 07/01/2026

2. Executive Summary

This report documents the execution results for the test run "Admin Institution". The objective was to validate the stability and functionality of the application in the QA environment.

Overall, the testing cycle executed 31 test cases with a pass rate of 0.00%. Key findings and defects are detailed in the subsequent sections.

3. Test Scope

- Modules Covered: Full Regression, Functional Verification
- Testing Types: Manual Execution, Functional Testing
- Exclusions: Performance Testing, Security Scanning (Not in scope)

4. Test Environment

- Environment: QA
- Tester: QA Engineer
- OS/Browser: Windows 10 / Chrome Latest

5. Test Summary

| Total | Passed | Failed | Blocked | Not Run | Pass Rate |
|-------|--------|--------|---------|---------|-----------|
| 31 | 0 | 1 | 1 | 29 | 0.00% |

6. Defect Summary

| Severity | Open | Closed | Total |
|----------|------|--------|-------|
| Critical | 0 | 0 | 0 |
| High | 0 | 0 | 0 |
| Medium | 0 | 0 | 0 |
| Low | 0 | 0 | 0 |

7. Detailed Defect List (Failed Tests)

Defect #1: Unknown Title

ID: N/A
Severity: Medium
Status: Open
Assigned To: Unassigned
Notes: No comments provided

8. Risks & Issues

- Risk: High failure rate detected. Regression risk is elevated.
- Issue: Critical defects need immediate attention before release.

9. Recommendations & Sign-Off

Recommendation: NO-GO - Remediation Required
